

FIREPLACE ASSEMBLY COVER PANELS

ABSTRACT OF THE DISCLOSURE

A fireplace installation assembly, comprising a fireplace housing having an interior fire containment area, an opening in communication with the fire area, and a cover panel covering at least a portion of the opening. The cover panel can be configured to have visual characteristics such that it is substantially blocking a person's view into the fire containment area when a fire is not burning in the fire containment area, and configured to allow the person to see into the fire containment area when a fire is burning therein. It is emphasized that this abstract is provided to comply with the rules requiring an abstract. It is submitted with the understanding that it will not be used to interpret or limit the scope or meaning of the claims (37 C.F.R. § 1.72(b)).
